

Ridgewood Shade Tree Commission

presents

ASHES, ASHES, THEY ALL FALL DOWN

May 5, 2016

Ridgewood Library Auditorium, 125 North Maple Ave, Ridgewood, NJ 07450

Ash trees are being threatened by the Emerald Ash Borer (EAB). These large beautiful and valuable trees have been killed in large numbers by this small green beetle that targets Ash trees. EAB has been detected in Bergen County. Your trees are at risk. Come to this informative seminar that will help you identify Ash trees in your neighborhood that are at risk. Discussion will also focus on strategies to manage EAB and save your high value Ash trees before it is too late. This program is approved for 2 Community Forestry Program CEUs.

6:30 - 7:00 Paul Kurtz, NJ Department of Agriculture - biology of EAB, where it is currently found in NJ, how to recognize signs and symptoms

7:00 - 7:30 Pam Zipse, Rutgers Urban Forestry Program - NJ EAB Task Force response to EAB in terms of insect surveys, ash tree surveys & inventories, decision support tools, and public outreach.

7:30 - 8:00 Rosa Yoo, NJ DEP State Forest Service - guidance for municipal EAB management planning, treatment and response options, wood utilization and disposal.

8:00 - 8:30 Q&A panel

Please register to attend: The Ridgewood Shade Tree Commission/Department
